

Vacuum Braking – Special Offers

Brake Actuation Kits		
The brake actuators transfer the force to the brake to achieve the braking effect.		Special Offer Price
PNR-1A	Vacuum Actuation Kit Dimensions: 110mm diameter x 210mm overall length Piston Rod Travel – 20.6mm Pulling Force – 30 Hg – 124lbs, 20 Hg – 83lbs, 15 Hg – 62lbs, 10 Hg – 41lbs, 5 Hg– 20lbs	£36.68
PNR-2D	Vacuum Actuation Kit with Trunnion Mounting Dimensions: 143 diameter x 142mm Overall length Piston Rod Travel – 20.6mm Pulling Force – 30 Hg – 124lbs, 20 Hg – 83lbs, 15 Hg – 62lbs, 10 Hg – 41lbs, 5 Hg – 20lbs	£39.47
PNR-12H	Refurbishment Kit for Vacuum Actuator For either PNR-1A or PNR-2D	£19.80
Vacuum Reservoir		
A necessary component to hold the reserve of vacuum		
PNR-1C	Vacuum Reservoir Dimensions: Overall length 252mm x 68mm Volume – 573 – 575 cubic cm	£14.85
Vacuum Release Valve		
Used to allow atmospheric pressure into the vacuum reservoir to release a detached vehicle		
PNR-1G	Vacuum Release Valve	£10.80
Brake Blocks		
30% glass filled Nylon Plastic injection moulded brake blocks		
PNR-1D	7¼" Standard Scale Brake Blocks - 1/8th Scale Suit 4" - 5" Wheel diameter	£11.25 Set of 4
PNR-1E	7¼" Narrow Gauge Brake Blocks - 1/3rd Scale Suit 5" - 8" Wheel diameter	£13.82 Set of 4
